PROGRAM UPDATES

Kelly Sports

It's been a long, but successful term four with the sun out, and summer sports in full swing around Australia. With loads of events, race days, and family days, Kelly Sports has been busy with kids and families in all-different settings and environments! We've loved the new sports this term, seeing volleyball and karate become popular in some areas, with the old favorites soccer, basketball and dance seeing high numbers and lots of familiar faces. We've seen loads of new programs with five new locations in Blackburn beginning this term! Strong attendance has been a highlight, with the classes filling up as the weather heated up! More participation has allowed our coaches to play a range of different games, and the kids have responded with greater enthusiasm and enjoyments. We were so lucky to have so many kids ready to get active this term.

This term, our **Multi-Sports Program** focused on Hockey, Soccer, Cricket and Basketball. Its been two terms since we have worked on our cricket skills, the kids were very excited to get back into and work on a range of skills required for the sport. Basketball was popular as always with the kids!

Kelly Sports Dance

Term four saw a popular End of Year Cheer program. The kids have loved the introduction of Cheerleading. Once again we have had great numbers in all our dance programs with each group picking up the routine easily. The end of term performance has been a highlight as they learn the routine. The parents and teachers are all invited, please check with your child's coach for details! If you would like to check out the moves we learnt week by week, or the full routine go to our Facebook page!

Pre school

Fundamental motor skills programs have incorporated AFL, Soccer, and Basketball. The kids have responded well and enjoy seeing the bag full of sports balls arrive at the start of the session. This term we have welcomed a number of different child care centres and are happy to have new kids on board! While having a sport as a central focus we still work on our general fundamental skills and other skills associated with the sports. The kids will always love their Crazy Games, so each session this term the coaches incorporate games the little ones all love. Some kids in our program will be off to Primary School next year, so we wish them all the best and look forward to meeting some new faces next year!
